Product Dimensions: 10.2 x 7.2 x 0.5 inches

Shipping Weight: 15.7 ounces

Average Customer Review: 3.9 out of 5 stars 18 customer reviews

Best Sellers Rank: #579,634 in Books (See Top 100 in Books) #101 in Books > Arts &

Photography > Drawing > Cartooning > Manga #6507 in Books > Comics & Graphic Novels >

Manga #7657 in Books > Arts & Photography > History & Criticism

## Customer Reviews

Shipping: a regular shipping was used and it took about a week (counting the weekend days). This one is a used book. However, except for worn out cover along the top edge, the rest of the book is practically new. :) There are 5 chapters: (1) Roundness and curves; (2) See-through garments and suggesting the body under clothing; (3) Accentuating particular body parts; (4) Attention-getting poses and situations; (5) Learn from the pros. Hikaru Hayashi spends quite a number of pages going over the characteristics of various clothes. For example, there is a difference between a girl wearing a t-shirt with and without brassieres; their outlines are different. Another example, there is a difference between a heavy-weight rubber body suit and a light-weight rubber body suit; the heavier suit results in less contoured breasts because it puts more pressure on the chest. The key point is to pay attention to how to render different clothing materials and types. One word of caution: this is not a book for those who are not familiar with figure drawing. Someone with a first-hand experience in figure drawing is more likely to absorb the details covered in this book. If you are not familiar with figure drawing, then learn figure drawing first. 04/08/2014: A few of pages in this book contains mature themes like chains, lingerie, leather/latex/rubber suits, plus a little bit of nudity. However,

they are instruction-oriented and none of them have pornographic contents in any way.

This is not my favorite of Hikaru Hayashi's manga drawings books. It has a small section on shoes that's okay - but other than that - not great. Lots of nudity and some unneeded, poor quality drawings of a erotic nature as well. I wouldn't buy this one again.

This is a good book it has a lot of information and idea's. Like some other reviews have said this is not for kids it not pornographic but it does show the female body pretty well. I could definitely see even a high-school student getting in trouble for having this at school.

How to draw Manga-More about pretty Gals is a wonderful book,I needed more reference on how to draw Manga babes and this book helps me out.

Awesome

As the cover suggests, this book has a very mature theme. This book does not show you how to draw pretty girls; rather it is a book for those who already know how to draw them. There is a very useful series on a comparison between the adult and girlish figure, a page at the end of each chapter. However, there is nudity (you will see nipples) and many shots from underneath a short skirt so that you can get a good view of the underwear. Like the other titles in the how to draw manga series, this is a high quality book, with an excellent translation job and great pictures. This is not a step by step book. This book has five chapters: 1. Roundness and Curves: A short chapter on presenting a female character in an alluring way. 2. See-through Garments and Suggesting the Body Under Clothing: Pretty much what the title suggests, this long chapter covers all sorts of materials and how they appear on the body. This section covers a detailed section on how to express transparent clothing with screen tones, or wet clothes clinging to the body. It also has some odd things like wrapping the body in ribbon, and oiled or metallic skin. The fetish and bondage fashions aren't so bad, just weird. The best part is that they show you materials like leather, rubber and stretch, and how to draw them on the body. 3. Accentuating Particular Body Parts: Starting with a sexy picture of a gorgeous manga girl titled: women are beauty incarnate; this section goes through all the parts of the body and how to express them with their own particular accessories. ( Hands, arms, the nape, the back, feet etc..) This is my favorite part! 4. Attention-getting Poses and Situations: Goes through all sorts of poses and ideas for drawing characters in striking ways. This

part covers jumping over fences, kissing or biting things, putting on make-up, etc. There is, of course, a part on the ever popular sailor suit, and its styles. Also, a not so useful part on what to wear under a bathing suit is also included.5. Learn From the Pros: This last chapter has four complete artworks with a commentary and the rough sketch included. They are not cutesy pictures, but I like them all the same. The FETISH FRIENDS picture is beautifully drawn despite its controversial theme. It is a picture of two girls, one girl with her hand on the other girl's nude breast both of them with veeery happy expressions on their faces, if you know what I mean. This book is for advanced artists. If you don't get any use from it immediately, it will come in handy in the future as your skill improves.
