Speak Better Business English And Make More Money

**Speak Better
Business English
and Make More
\$\$\$ Money \$\$\$**

Synopsis

Don't miss the boat! Carry more clout! Come out on top! Jump-start your career with Speak Better Business English. Wouldn't it be fun to blow your competitors out of the water? You can...with your new secret weapon: better business English. Americans don't speak the kind of English you'll find in textbooks or hear in most classrooms. They speak business lingo - an arsenal of expressions and idioms that cover marketing, finance, accounting, HR issues, strategy, and other business topics. Now you can arm yourself with these powerful weapons, too. Speak Better Business English and Make More Money gets "down to brass tacks" so YOU can speak American business English with a whole new level of confidence.

Customer Reviews

I love it. this book is totally helpful.

Great,one of the book read last year, I have learnt and applied it. I suggest reading this when you have a chance

While many of my students really enjoyed "speak business english like an american" This is book is a lot more realistic and the exercises a little more challenging. Also, the voices on the audio are closer to natural native speaker speed. Thumbs up.

I started with "speak English like American". I studied and felt a lot of fun, together with my

daughter, who came to USA when she was a few months old. So the readers need not have to be ESL students. It is a great book that I recommend to any of my friends. This book, does not have a simple story that is so fun (Amy's books and stories have been in our daily life between my daughter and I!) However, it is also very useful. I like the cartoons that help me to understand and memorize the phrases. I also like the part of "origin" and hope she adds this for each word/phrase/idiom in her books. Some words belong to different classes. I hope Amy can also mark it in the future. Of course, even for same class, people use different words based on different background as well as where they were born, where they grew up. some use those words a lot. It sounds like they just talk exactly what Amy has shown us! As a Chinese, there are so many differences between my native language and American English. However, I try to find something mutual. I do find some. See, "Look at something from a different angle", "get something off my chest", "think out side of the box". When I finally found a similar Chinese word/phrase to match these words, I feel excited at it. I am looking forward to seeing more of her books. And thanks for , such a great place, so that I can know her new book comes out. I ask our local library to buy the new book and I can first read it. Such a great experience.

I am rarely this negative, so pardon my frustration. I was very disappointed in this audio book. Just twenty five minutes into this program, I had to stop. Not sure if I got ripped off or what, but it said it was only 45 minutes of audio. ??? Right? Even at that, I figured it must be a good read with only that much content. I still paid the full amount \$9.99. This was a waste of my ten dollars. I am sure that I can come up with things I have bought for ten dollars that were worse examples, but still.... Honsetly, review readers, take this review to heart. I wish I had another book to refer you to for this type of content. I don't. I bought it for the sole reason it's marketed for. Speaking better corporate or business lingo or "english" as Amy calls it. It's not even close to a way to make more money. Not even close to a way to speak better Business English. All this book consists of is several "roll playing" scenarios. It does not even give any explanation of what they are really role playing. Nore on each role play does it give an explanation of weather the role play you just heard was a good example or a bad one. And very simply absoultely no narration at all execpt for the acting or the role playing itself? Not even a "Did you hear the tone in her voice when she said, such and such. Thats a bad way to say it. Try it this way for better results." No, nothing, just role playing. Thats it! So frustrated and I would love my ten dollars back. **DO NOT WASTE YOUR TIME. DO NOT BUY THIS BOOK! SORRY YOU WASTED YOUR TIME EVEN READING THIS REVIEW.** It is a real review by the way, I don't get paid by Amy's competition. I have about ten reviews on here and I

think this is the only bad one I have ever written.

There are not that many books like this that help you understand and teach you how to use idioms properly. I've learned many useful expressions that I now use on a daily basis. It's fun!! I feel more confident when I started using new expressions. I recommend this book to anyone who wants to master the great modern English language.

Very little of use for actually teaching. A few good ideas. Many free blogs can be found with better information.
