Customer Reviews

Photographer and artist Erin Gleeson lives in an idyllic cabin near San Francisco, California, where she paints beautiful watercolors, cooks from her CSA box, and writes her beloved food blog, *The Forest Feast*, and a weekly *Delish Dish* column for *Better Homes and Gardens*. She has garnered attention from *Design*Sponge*, *Food 52*, *Bon Appétit*, and *Saveur*. She lives in Woodside, California.

I am pretty picky about wall calendars since our family of 6 depends on it to keep our lives working together smoothly. I liked the aesthetic of this calendar, especially the food theme, since we keep it in the kitchen. I always try to find a small artist or favorite non-profit (like NPR) to purchase from. What I like about this calendar is that you still get the art without having a huge space sucking calendar on the wall. Most calendars just have the art on the top, but this is sprinkled all on the actual calendar. This saves some fridge space, which is nice. This calendar isn't my favorite for a few reasons. The boxes are just a tad too small. I can already tell some of our busy days, or days with a pre-written holiday on them will get a little messy. Also, the background could use to be a bit lighter. Some of the days are fully covered by the background photo and it's hard to see the writing

on top of those days (as seen in photo). I also wish that the top portion of the calendar was a different watercolor page every month instead of always pink. It would be nice to use that portion as sort of a "frame" and put random drawings from my kids on it ... but the pink will get old quick. All in all an okay calendar. It will get us through the year.

This calendar is beautiful and excellent quality! It is fully saturated with deep colors and tones and the paper is a very thick stock.. I love this calendar and will buy again next year. You'll note in the photo that there is a strong red wire that increases the strength of the hanger. "Well done" who ever made this!

Slightly smaller than the "write on" calendars that we had used for several years, but what a pleasure to use and view. We will seek out a similar type calendar for 2017.

Spiral spine facilitates the calendar's suspension from a nail/tack on MOST narrow strips & surfaces, yet not creating the difficulty of writing over a bump!

Not too happy with this calendar. Nothing special, very disappointed. Love her book.

A beautiful calendar for our kitchen. We love the suggestions for in season produce.

Beautiful, bright and bold calendar. Nice quality paper. Brought into my workplace to brighten up my space.

This calendar is beautiful!
