# Insurance Handbook For The Medical Office - Text And Workbook Package, 14e

## Synopsis

Stay up on the latest in insurance billing and coding with Marilyn Fordney's Insurance Handbook for the Medical Office, 14th Edition. Trusted for more than 30 years, this market-leading handbook equips you to succeed as medical insurance specialist in any of today's outpatient settings. Coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that assist you in accurately filling out claim forms. This new edition also features expanded coverage of ICD-10, electronic medical records, electronic claims submission, and the HIPAA 5010 - keeping you one step ahead of the latest practices and protocols of the profession. Key terms are defined and emphasized throughout the text to reinforce understanding of new concepts and terminology. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout the text highlights important HIPAA compliance issues to ensure readers are compliant with the latest regulations. Emphasis on the business of running a medical office and the importance of the medical insurance specialist details the importance of the medical insurance specialist in the business of the medical office. Increased focus on electronic filing/claims submission prepares readers for the industry-wide transition to electronic claims submission. Separate chapter on documentation in the medical office covers the principles of medical documentation and the rationales for it. "Service to Patient" features in most chapters offer examples of good customer service. User resources on the Evolve companion website feature performance checklists, self-assessment quizzes, the Student Software Challenge (with cases on different payer types and an interactive CMS-1500 (02-12) form to fill in). NEW! Expanded coverage of ICD-10 prepares users to code ICD-10 with the planned effective date of October 2015. NEW! Added information on the electronic medical record and electronic claims submission - including information on the HIPAA 5010 - equips users for the transition between paper and electronic methods of medical records and links the CMS-1500 (02-12) form to the electronic submissions process. NEW! SimChart for the Medical Office (SCMO) application activities on the companion Evolve website adds additional functionality to the insurance module on the SCMO roadmap."

## Book Information

Fordney continues to give professional lectures and is a member of a number of professional national associations. --This text refers to an out of print or unavailable edition of this title.

great book!

The book was very informative and easy to navigate through. I didn't receive the workbook, just the handbook.

Awesome book A LOT of good materials to learn from. I will be renting this book again for my part 2 Medical Insurance class :-)

Came fast just in time for my program, brand new looking and is a great workbook! Must get for the price and brand new!

Only the workbook came. It stated workbook and textbook in description. Very deceiving.

What happen with the text book suppose to be both a workbook and textbook very upsetting

Fast shipping. Item as described.

It's a textbook, and for a textbook it's very simple. It does a great job at defining and explaining concepts and theories. Was used for a medical coding class and passed with flying colors.
