## Customer Reviews

There is a LOT of information in here. The pages are thin and the text is small and there is so much info about everything. I didn't realize it'd have so many actual recommendations for actual places and list their addresses and stuff. It's awesome.

Print is too small! This book contains great info but it is tiny print on tissue thin paper, and is two inches thick. It would be great if bound and sold in a multi book set in an easy read font. The maps are only marginally usable due to size. Too bad. This could have been a really great reference.

The book has proved quite helpful in planning an up-coming trip! The size of the book itself will easily slip into our luggage! Thank you!!
