The Seer: Volume I Of The O Manuscript: The Scandinavian Bestseller

Synopsis

“Everything mankind longs for is, and has always been, within his reach. If he would only acknowledge this there would be nothing else to look for. When this happens mankind will step out of his self-made prison and into reality.” We are all searching for something “sometimes we don’t know that what it is and for some of us the search reveals treasures way beyond what we ever imagine it would.” This book is about just such a search. In 1996 Lars Muhl was struck by an unexplained illness, which neither doctors nor alternative therapists could diagnose, in desperation he turned to The Seer who, after a single phone call brought Lars ‘back to life’. Intrigued by this mysterious man Lars travelled to Southern France to become his apprentice. This marked the beginning of a lifelong spiritual and philosophical quest to understand the interconnectedness of the cosmos and how past, present and future become one. The Seer is a human being who is capable of not only diagnosing and curing people, no matter where they are, on the globe, but is also able to read ‘The Book of Life’, where the destiny of mankind is recorded. “This is my journey every word of it is true but it is also meant to be an allegory, the lessons I have learned are universal.” The Seer is the first book in the Grail Trilogy otherwise known as The O Manuscript.

Customer Reviews

“Made me reassess my story and life | compelling” Al Jardine, The Beach Boys

Lars Muhl is an internationally renowned author, speaker and healer. He is the founder and chairman of the humanitarian organization Hearts and Hands and, together with his wife Gittha Ben-David, co-founder of the Gilalai Institute of Energy and Consciousness in Denmark.

I've been thinking for awhile about the best way to describe this book, because I had to read it in a different way in order to experience the message. What I mean by that is I started reading and found myself thinking "wait, where is he now?", "when did this happen, before or after this other thing?". I found this frustrating. So, I changed my reading style to a more relaxed kind of flowing feeling; allowing the story to unfold along a winding, maybe circular, maybe jumping from place to place and time to time narrative. I just kept going and went along for the ride. Once I did that, I couldn't stop and read the entire book. I felt like I went on a journey with Lars Muhl, almost entering into his consciousness. The story itself is full of beautifully described places, people, and events which are infused with the emotions, struggles and revelations that the author experienced. Instead of some kind of self-help book, or spiritual tome that lists practices and principles for personal growth, the book takes you on a wonderful adventure where you learn concepts and truths alongside the narrator. These ideas resonated with me and helped me recover from a kind of dark time that I was experiencing. By the way, I received this book from the publisher. I have a huge book collection and I like the cover of the hardback edition, so I'm going to buy it from right now and post my review there as well.
