Grade Level: 5 - 4

Customer Reviews

Grade 3-6-These books about different types of motorcycles are presented in a straightforward, informative style. They provide an introduction to specific types of racing, basic history, equipment, skills, and safety. What is not included is the price of equipment or diagrams of the specific kind of motorcycle that each title highlights. A large, full-color photo appears opposite almost every page of text. Individual titles from this series may be of interest to young people, but most libraries will not need all 10 books. Enthusiasts may prefer Michael Dregni's *Motorcycle Racing* (Capstone, 1994). Diane Olivo-Posner, Long Beach Public Library, CA Copyright 2000 Reed Business Information, Inc.

Great history, and informative. Whether your new to the sport or never have seen or heard anything about Dirt Track motorcycle racing, the author Ed Youngblood does a great job exploring and relating the history of this original american sport!!

Doesn't cover the territory well

Aimed towards children who express an interest in Dirt Track racing. Adults will be disappointed in the content.

Nice book about a fantastically exciting sport, great closeup photos of riders, but not designed for adults.
