Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Great map to have if you like to explore the Mt Baker-Snoqualmie NF. We have four of these maps that cover the entire area from the central Cascades all the way to Canada. These maps have kept us from getting lost in the maze that is the forest roads throughout the Cascade Mountains.

Probably the best recreation map available, but like all other maps of the area, not completely up to date (e.g. the Baker Lake Resort was closed a couple of years ago). As good as this map is, it is still a good idea to check with the Ranger Station in Sedro Woolley for road conditions, campgrounds, etc.

Great map if you want to hike near the Seattle / Everett cities, but this one is missing distance markers on the trails. Some NG maps have them, so it would be nice to see the consistency from the this great publisher.

best maps! they can be refolded, twisted, wrinkled, drenched, sat on, driven on, and they still look great!

Nice, very detailed map. Exceeded expectations. I sent this map to a friend who's into Orienteering and he loves it.

Not much to say. It's a map, it's good map. Very detailed, well made, perfect for the backpack. No complaints.

Awesome
