Customer Reviews

I hope you have toilet paper ready, cause what a pile of crap this is. After wasting time reading thru this same old rehashed info, the author tells you at the end that you'll need \$1,000.00 to take out a secured loan, rinse and repeat three times. Then you repay the loans over a two year period! So, after working on being financially responsible, such as paying your bills on time for a year, you have to spend two MORE years repaying the loans, all the while paying the interest on top of that! Don't waste your time or money on this, you'll do better at your local library or just google for some free advice. I'm so mad I'm going to contact and demand a refund because the Title is an outright LIE!!!,

you need to screen your products a little better ...and K.N.Carter, you should be ashamed of yourself!!!!

I read perfect credit in 12 months and it was a very good and helpful book i started reading it at a friend's house and had to get it for myself it really turn my credit around i suggest you get this book

very little useful information for my needs

Perfect example of how a catchy title and almost no useful information an create an e-book.

This is a very easy read, very helpful with great advise on how to get your credit score up fast.

I wish I had this book 20 years ago.His solutions and methods are fool proof and work.I highly recommend this book to anyone looking to get their credit score back up in minimum time.Give it to a friend they will thank you for decades.

Very very basic. Good for a young author who is trying to get started and for people who no absolutely nothing about credit.

I like this book very much. It was easy to follow and no nonsense. It gave me the feeling that if I follow through with these simple steps, I can have decent credit in no time. It also helped in the matter of what to avoid when using your credit.I recommend this book to anyone not knowing what to do with their blemished credit.I give this book 5 stars.
