The New Bottoming Book

Synopsis

Almost a decade ago, the first *Bottoming Book* taught tens of thousands of people that bottoming - being a submissive, masochist, slave, "boy" or "girl", or other BDSM recipient - is as much an art as topping. Since then, the growing popularity of BDSM, and the blossoming of the Internet as a source of information and connection, have created a whole new universe of possibilities for players. Now, the completely updated revised *New Bottoming Book* gives even more insights and ideas, updated for a new millennium, about how to be a successful, popular bottom! New sections on dominance/submission play, bridging the gap from on-line to real-time relationships, the four stages of a scene, and more. Plus, Fish's hot illustrations of bottoms in action, many moving and funny anecdotes, and an extra-large helping of the realistic wisdom for which these authors are known.

Customer Reviews

Excellent information that every Dom/Top should also read. Great down to earth explanations, along with "Topping" these will round out your understanding of the many ways you can enjoy BDSM with others. Excellent.

it's a good book in its own right, it just wasn't what I was looking for. It seems geared more toward those that know nothing or have apprehensions/misconceptions about the scene. The Dom do's and don'ts this book is not. It is closer to an extended essay on the division of power within a dom/sub relationship. If you're looking to better understand the emotional side of dom/sub

relationships then this is a good starting point.

Well written. I hope all the newbies who think Fifty Shades of Grey is a how-to manual actually read this.

very informative book. great for beginners full of useful and important information.

This book was incredible. The content was easy to digest and addressed many areas of topping which I had not considered as a novice. I have already re-read the book after reading some other bdsm literature and still find the book insightful and found aspects that I glossed over previously. Especially helpful for me were the interviews snippets and scenes, which helped me understand that some of my personal fears of being a top are shared by others and its not something that is wrong with me. I would heartily recommend this book to anyone interested in the scene.

If you are a top and are new to the BDSM lifestyle, the book is for you. It gives a brief overview of the many facets of the lifestyle and covers all the basic concepts, and gives excellent examples and scenarios you can try. Contains a glossary of terms & acronyms, as well as a resource guide pointing you to further research.

Quite an interesting read. The latter chapters on psychology were the parts I found most interesting and useful, and over all it's a well written book.

I had been looking for something like this but repeatedly came up empty. There are plenty of books on BDSM, but nothing that focuses on PLAY. I'm not here for spiritual awakening. Just some good clean (er...dirty) fun at this stage. No, I'm not entirely a Hedonist! If you plan to play or "scene", pick this up.
