Book by MCDUGAL LITTEL

Exactly as described by seller. Was slightly used but in great condition. Easy read and easy for kids to follow. The children and myself approve :) Also in the beginning of each section has a page that describes what is going to be taught in chapter; perfect for discussion before student does the chapter. Then at the end of the lesson there is a review for student.

I needed to brush up on my American history and this is a great book to use for that. If I were back in school I would enjoy history class, I've always been a history buff. Lots of charts, pictures & illustrations. Book arrived quickly and seller was great to deal with.

Learning a lot about American History...trying to brush up on what I learned in school and this book is full of valuable info and great pictures!

Just what we needed! It is amazing how much homework there is in middle school now! This has enabled us to finish homework and study for tests at home since the kids have to leave their

"school" textbooks at school. This book was listed as used but looks BRAND NEW. Awesome deal.

As I look back, it was as described--- not great condition but we needed it a history text.

Very good

Good condition for what we needed to use it for!

very well, I love it
