This is an excellent book on Relationship Improvement. All of the information and tips that I need to know about how to improve our relationship are already revealed and well-described inside. T Whitmore has done a very awesome job in compiling and creating this Relationship book. Also the unique part of this book is the compilations of the guide of Control Your Temper, Let Go of Anger. This is a terrible book! And WAY over priced! It's worth maybe \$4 not \$18! The book is super thin and the lettering is huge font and double spaced. The content is terrible. I should have read more into this book before I paid so much for it. The content gives basic general tips on how to not be angry, tips that every person already knows...like: use humor, calm down, be positive. Anyone seeking to control their anger needs a lot more in-depth knowledge and explanation and information than this book can provide. Please do yourself a favor and DO NOT purchase this book it is NOT worth your money and definitely not what you are looking for!

Such an inspiring book! I am half way through this book and had to write a positive review. I love the way the book is written, short sentences that are direct and to the point. So many of the things I've read already in this book on anger management make sense. Many of the scenarios present by the author I see as direct parallels with things I've experienced in my own life. This is really worth recommending to all!
