Customer Reviews

I gave this publication to my 87 year old mother who now lives in a nursing home. She enjoys keeping her mind as alert as possible, and the games and exercises are not too difficult .

Just as described, I have a 7 year old, he loves it, excellent product that initiates thinking process, highly recommended.

My grandson wanted to complete these all in one sitting. He is 7 1/2 and loves the challenge. Some are too difficult but his mom and dad like doing a few as well.

Great book for both kids & adults. It has a nice variety of games.

I bought this for my 8 year old son. The puzzles are easy, but challenging for him. I like how it gradually gets more difficult. Very please with this and can't wait to get more.

Some of the pages are ridiculously easy and others are ridiculously hard for my 8 year old. It was a fun book for the summer thought. They seem to enjoy it.

My daughter eats this series up. She loves them and finishes these with in a week (I bought almost all the books in this series). Highly recommended , and not just for rainy days.

My 6 year old granddaughter loves this book... It's challenging and keeps her busy. I would definately purchase more...
