Customer Reviews

The recipes provided in this cookbook are superb! I don't know most of them so I'm excited to try it out. I appreciate that the author indicated some of the waiting time in the recipes like "let it bake for 35 mins" because some of the recipe books I have don't have this so it's a little difficult to follow the instructions. I would have given this book 5 stars if it weren't for the spaces, there's too much space. I wish they paid more attention to the editing of the layout.

There are some good recipes in this book and it's a good starting point for anyone wanting to change their lifestyle toward healthful living. At the risk of sounding childish, I didn't give this five stars because I would've liked to see more pictures it being a cookbook. It makes a big difference with me when finding a recipe to cook.

I'm very interested now to healthy living since I should take care of myself because I'm the one who is taking care of my whole family. So being healthy is a great wealth for me. Reading this book is like a treasure for me since the most important now is living a healthy lifestyle. I go for this book since it has all the diets that you need to feel great.
