The My Little Pony 2007-2008 Collector's Inventory

Synopsis

In 2007, Hasbro began to celebrate the 25th Anniversary of My Little Pony with collectible ponies, playsets and more for young MLP fans and collectors alike. From convention exclusives and hard to find special offers to the sets available in retail stores, Summer Hayesâ™ The My Little Pony 2007-2008 Collectorâ™s Inventory provides everything the collector of any age needs to organize their collection. With hundreds of full color photos of items both in and out of packaging as well as checklists for the collector to keep track of all the tiny accessories, this guide picks up where the Crystal Princess set left off and continues into the 25th Anniversary Celebration. Featuring fan favorites like the Core Seven, So-Soft and Dress-Up ponies, it explores not only the standard sized MLP figures but also the smaller Ponyville figures, large figures such as plush and McDonaldâ™s fast food premiums, making it the ultimate reference guide for even the casual collector.

Best Sellers Rank: #2,082,744 in Books (See Top 100 in Books) #27 in Books > Crafts, Hobbies & Home > Antiques & Collectibles > Dolls, Toys & Figurines > Toy Animals

Customer Reviews

This is the perfect supplement for the first G3 inventory book. Especially when Hasbro switched to the "Core 7", and there were 7 different versions of Pinkie Pie, you can look up which one you have in your hand. There is still the extensive accessory list as the rest of the books and full color pictures. It is a little smaller in size than the other two books, but that doesn't deter from its usefulness. I keep all of Summer's MLP Inventory books next to my computer for quick reference.

This is an amazing collection of information for those who are in the My Little Pony fandom.

Great book! Thank you so much!

Very nice transaction....helpful item...Thank you

I am highly satisfied with Summer Hayes' work, as well as her publisher's. The pictures and information are very clear and easy to understand. Great work!

I actually got this book for my nearly 4 yr old, who is a total My Little Pony-aholic. She loves to see all the different products, and this as well as the previous collector's inventory book are her favorites. She takes them around everywhere. They're also useful for me when looking for things for her on auction sites.

This is yet another well thought out, colorful, well organized reference for a line that became impossible for collectors to keep straight without a reliable reference. This is that reference. Easy to find the information you need, or if you want, just as easy to get lost just enjoying the colorful pages of ponies. I can't think of a way this volume could be improved upon, and I hope it isn't the last she does.

Very nice little book to finish off the G3 line of ponies. Nice pictures and descriptions. Enjoyed it very much!
