Customer Reviews

New product. Never used!

I was sitting in a beach front restaurant that was playing Mexican music in the background when I heard a song that I really liked. I asked the waiter what song this was or who was the singer. He immediately replied that this album was called "Esencial by Joaquin Sabina (whom I had never heard of). I checked it out when I got back to the hotel and was amazed to find that this man has been around for decades and is well know to most Mexicans. I browsed through a number of songs on the site and decided to purchase the entire album via .mp3 download. In less than two minutes the songs were on my computer and I'm slowly going through them and finding many of them to be amazing gems. Mr. Sabina has an interesting past and writes of his experiences (somewhat in the manner of Leonard Cohen) with life and love. He's easy to relate to. Check it out on !

Great Álbum, the socialism and poetry in this Álbum are striking, strong and magical realist.

OK
