Street Fighter: World Warrior Encyclopedia Hardcover

Synopsis

Updated and expanded! Enter the world of Street Fighter, where fighters of every size, shape, and color collide in a global battle for supremacy. Combatants fight for reasons as diverse as their nationalities, each with their own, unique moves and fighting style. Now you can learn the whole story behind the world's greatest fighters in The Street Fighter World Warrior Encyclopedia! Inside you will find detailed profiles of every Street Fighter character, including their origins, personalities, allies, enemies, and more! Each profile is accompanied by pulse-pounding artwork by top UDON artists like Genzoman, Jo Chen, Arnold Tsang, Jeffrey Cruz, Joe Ng, and Omar Dogan.

Customer Reviews

As a fan of Street Fighter games and art, I really enjoyed going through this book learning about all the characters. There are lots of interesting information on each character, such as their origins, allies, enemies, fighting styles, things they like or dislike, and the games they appear in. In terms of the level of depth, it's not as detailed as what you'll get from wikia pages of course. Each character in the book is presented with a one page profile and a full-page illustration on the other. The beautiful artworks would be one of the main highlights for the book. It's also more convenient to have all the characters compiled neatly (alphabetically) in one book. In addition to the main fighting characters, the side characters are also included, but with only face cuts and shorter profiles. Nevertheless, it's still quite interesting to see how inter-related the relationships are between the different characters in the Street Fighter universe. Recommended to Street Fighter fans. (See more pictures of the book on my blog. Just visit my [profile](#) for the link.)

I bought this for a friend who is a much bigger SF fan than I and he adores it. I can honestly say the artwork is beautiful and I did enjoy reading some of the character descriptions. If you're thinking about getting it then I say take the plunge. It's not very expensive and it looks great on bookshelves.

Amazing encyclopedia for any Street Fighter fan. The artwork is amazing and it provides in depth info about each character's backstory. Would be amazing if it included production notes about the characters' development. There are some pretty interesting stories out there as to how most of the characters were designed.

Excellent resource for SF fans. It has all SF characters to this date with detailed character bios, their relationships with other members of the cast, and nice artwork. Artwork and information is updated from the previous version and is more visually appealing. No EX characters included, only characters from the official titles are included. All NPCs are also represented. I hope they continue to update it as we get new SF games.

Amazing. This encyclopedia is even better than the first one. Has a nice touch with the 2D sprite for every character in this book. It is up to date to USFIV. I think Udon will make a new version since now we have SFV. I think that they could do it better with some images like Balrog and Sagat but it is just my point of view.

For this as a gift for a fellow SF fan. I was gonna be sneaky and read it before I gave it away but it came VERY well sealed, lol. He cracked it open and absolutely loves it! It's a great gift idea.

I've missed out on some of the new characters, so it's a good way to catch up on all the Street Fighter Characters, and story, right in your figure tips. A must have for any fans who love Street Fighter, or any who is interested in getting to know about SF

Great guide to knowing your fighters, a real encyclopedia and a quality book overall.
