Louise Spilsbury is an experienced author of nonfiction books for young people. Her writing covers

a wide range of topics from animals and science to history and social studies.

It is a lower level book than what I thought but all in all it will get the job done. The book is in very good condition. I am considering ordering the whole series of these books. I have already purchased half. The information is clear and to the point.

great

My 4 year old and I read this book every night. She is fascinated by jellyfish and this book gives all the important info about jellyfish. How they eat, what they eat, what eats them, how they move, the body parts of a jellyfish, baby jelly fish etc.

The book was everything I expected and great for my 4 yr. old nephew. He loves Jellyfish.

Got this with a Cuddlekin purple jelly for my grandnephew. His grandma says they've read it several times already!

Great book with lots of facts about Jellyfish. It is also a fantastic book for introducing nonfiction text features to young children!

Great book for first grade granddaughter. Relevant information. Worked perfectly for her report. It was as expected and advertised. Thanks.

Great book for my kindergartners!
