## Customer Reviews

Stephen J. Pavlidis has been cruising and living aboard his 40 sloop IV Play since the winter of 1989. Starting in the Exuma Cays, over a decade ago, Steve began his writing career with his guides to the many fascinating destinations he visited. Many of his books stand alone to this day as the quintessential guides to the areas he covers. His books are different than most other cruising guides in some very significant ways. All of the charts in Steve's books were created using data personally collected while visiting each area using a computerized system that interfaces GPS and depth soundings.

We bought three Bahamas guides and found none terribly helpful. A cruising guide should talk about anchorages, holding (especially in a place like the Bahamas), and some special places not to miss. He is best on the Exuma Land and Sea Park, but concentrated on what it was and the history, not on the "don't miss" things. Unfortunately, the Bahamas have been hammered by the recession and storms, and many places are closed or open only for lunch, for example. Those issues were not

covered.

The quality of the paper was very poor. And the ink was water base. Once you got a drop of water on the page it penetrated to at least two or three other pages and erased the words on the pages. It makes no sense to design a book for navigational purposes when it is not survivable! I usually do not write reviews. But, for the price you pay for this book and I purchased the entire three volumes, if I had caught in a rain storm or had taken some big waves I would have lost the entire books on my boat. I do not recommend them.

Nothing new here. A disappointing read and reference guide. Probably will return book if possible as it offers no new information.

Great cruising guide. It doesn't look like a regular commercial cruising guide found out there. It's a book to show you around those places stated. It's a great addition to our on board cruising information, we really took a lot of advance having it with us when we did the trip. Wilmag

The delivery was fast, the book was in perfect condition. The product was exactly as advertised. I plan to resume cruising the Caribbean again soon and this is an essential item.
