## Customer Reviews

There are only a few graffiti-drawing related books out there. This is great. It's good for children and really helps to develop basic skills and to acquaint oneself with certain terminology. This teaches different styles of lettering, one letter at a time, and gives style and coloring tips as well. While other books may be more colorful and more about the art of graffiti, this is really like a beginner's workbook. And it's worth mentioning that this probably isn't great for those with intermediate skills. This book along with some useful tips and videos from internet users are the perfect springboard to mastering this art.

Using these techniques in Photoshop and liking the results. Instructions remind me of learn calligraphy books.

Wealth of information!

My 12 year old grandson loved it

decent info

Not that great! Extremely basic.

well written well illustrated my daughter really likes it I would recommend

I always wanted to learn graffiti and this help me learn your graffiti so well
