Customer Reviews

What a beautiful children's book! This book is well loved by my family of 5 children. We live overseas where there is no snow, so we have enjoyed how this story has brilliantly captured the experience of wintertime wonder. It brings in the awe and wonder in God's display of winter through the eyes of a child. The pictures are beautiful, humorous, and heart warming. It makes both young and old wish for an afternoon to create snow angels and throw a few snow balls! You will love it!

I love this book! I am a kindergarten teacher and have read this book, along with the three others in this series, to my classes for years. The author does a wonderful job of capturing the wonder of snow in the winter, and the children always loved seeing some of their favorite winter activities in the book. They also love the illustrations, which are vibrant and engaging. I highly recommend this book to any teachers or parents out there!
