Great product and description, definitely coming back to buy again

my wife just passed her ged exam. thank you

Good condition, thanks

This book was obviously extensively used and I was disappointed in the how much wear it had seen. It was for a friend, but I'm sure the content was helpful.

Tengo una pregunta este libro tiene parte de matematica ?

My wife is from Mexico and only speaks spanish. We found this guide in our local library. She used it to prepare for her GED exam then passed it with flying colors. She and I both credit this book for making it easy and possible. It covers most all topics the GED will be based on. It was so helpful and informative, we're purchasing one for the house for reference. It is definately an essential for Spanish speaking and reading persons who want a GED.
