Dick . . .

.TOTAL RECALL “ BLADE RUNNER “ THE ADJUSTMENT BUREAUBut what you probably didn’t know is that their creator was living out some of the same incredibly bizarre scenarios that he wrote about. One can easily compare Philip to the character played by Arnold Schwarzenegger in “Total Recall,” who found himself in a parallel universe on a faraway planet, despite the fact that he was only supposed to be hooked up in a laboratory to a machine that creates realistic dream-like images. Which reality is the character really living in?At a sci-fi press conference held in France in 1977, Philip tried to explain some of his bewildering thoughts about the existence of a parallel or self-contained “Matrix-like” universe created by “someone” who has the ability to alter the course of time and our concept of reality:“People claim to remember past lives,” Philip told the throng of reporters and fans. “I claim to remember a different “very different” present life. I know of nobody who has ever made this claim before but I rather suspect that my experience is not unique. What perhaps is unique is my willingness to talk about it. We are living in a computer-programmed reality and the only clue we have to it is when some variable is changed and some alteration in our reality occurs . . . and because of this a variable WAS changed “reprogrammed as it were” and an alternative world branched off.”

Drawing on the masterful mind of creative genius Philip K. Dick we offer up dozens of his personal experiences, as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. This is NOT science fiction. This is a universe that cannot be so easily grasped or explained. The well-known collector of scientific curiosities, Charles Fort, is often quoted as having said: “The Earth is a farm. We are someone’s property.” He likened our condition to being movable pieces on a chess board. “There is no doubt that we are under some sort of surveillance and that an “invisible hand” has the ability to carve out our existence and “interfere” in our daily lives by creating a variety of bizarre “play scripts” that to some may seem like pure “coincidences.”

Or so says pop culture paranormalist Tim Beckley, who notes that “Synchronicities are not just random occurrences but are laid out before us by some sort of synchronicity command post, which ably demonstrates their mastery or control over us hapless earthlings.”

Drawing on the masterful mind of creative genius Philip K. Dick (some to this day perceive him to have been a total “mad man”) we offer up dozens of his personal experiences,

as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. Beckley and co-author Sean Casteel lay out a plausible scenario to explain the intricate workings of what has been dubbed "The Synchronicity Command Board," or "Earth Coincidence Control Office," as so aptly named by the brilliant American marine biologist and neurologist, Dr. John C. Lilly.
