Customer Reviews

I was not sure how this book would read but I really enjoyed it and found the material it covers very useful. The author walks through the different criteria to help determine what clothes to consider when building a capsule wardrobe. I found the information on color invaluable and have started culling my own closet of clothing in colors that really does not flatter me. I did only give it four stars, because I felt the author was repeating info that she had already covered in other sections. Overall, I felt it was a very good usable book.

An enjoyable effective read this book will definitely help me solving my clothing problems. I love the style sense of Sophie. I have a lot of stuff to wear but i didn't find them when i need them and i think this is a common problem for most us.
