Beatles Complete Easy Guitar

Synopsis

(Easy Guitar). This bestselling easy guitar songbook has been a mainstay on the music stands of guitarists for nearly 30 years! This refreshed edition features all-new engravings of the same incredible song list: 155 songs by the Beatles from their classic early hits to their psychedelic later years and every phase in between, this book lets you play through the entire Beatles journey. The music is arranged at an easier level and includes chord grid diagrams. Songs include: All My Loving * All You Need Is Love * And I Love Her * Back in the U.S.S.R. * Blackbird * Can't Buy Me Love * Come Together * A Day in the Life * Day Tripper * Drive My Car * Eight Days a Week * Eleanor Rigby * Give Peace a Chance * A Hard Day's Night * Help! * Here, There and Everywhere * Hey Jude * I Should Have Known Better * Lady Madonna * Let It Be * The Long and Winding Road * Lucy in the Sky with Diamonds * Norwegian Wood (This Bird Has Flown) * Paperback Writer * Penny Lane * Revolution * Things We Said Today * Ticket to Ride * We Can Work It Out * When I'm Sixty-Four * With a Little Help from My Friends * Yellow Submarine * Yesterday * You've Got to Hide Your Love Away * and more! Please note: this book does not contain tablature.

Customer Reviews

I probably should have ordered the Complete Beatles in Normal guitar, not knowing just how easy this book was geared to. For what it is, it's a great book, giving finger placement instructions and "keeping it simple". But honestly, it's just a bit too simple, not really using the right chord at the right time on songs but that's my issue, not the book's. If you are a beginner, this is a great book. I pick up

songs quickly so found myself wanting something a bit more like the original music immediately. I should give this a 5 star but didn't because I don't think the book description properly described the intent of this book, to only play the very basics, not sounding like the actual song or chords used in the recording. I find myself a lot not even recognizing the song I'm playing, but maybe it's just me. I love the Beatles and will search for something a bit more "complicated" and true to the song's roots.

I bought this to replace the original I had, which has been chopped up, drilled for 3-ring notebook and used extensively. But this new edition has changed completely from the first edition -- and not even the same -- it's like they photocopied tabs off the internet . . . harder to read, not nearly as nice. Sorry. You should have bought the first edition a decade ago.

If you have the answer of why today many young people likes (the music of) The Beatles , that's why I gave Five Stars to this book.

Bought this for the hub. and he loves it. Makes learning guitar lat in life a snap.

I love Beatles music and found this great book over 20 years ago and used it to help teach myself to play guitar. The book has easy to read chord fingerings and knowing how the song goes it made it easy to learn. I bought this for my brother so he hopefully can do the same thing. I have bought other music books that were much harder to read and understand. This one is perfect for me, hope it will be for you.

If you are a Beatles fan and beginning guitar player this is a great book. The arrangements are mostly first position and it has nearly every Beatles song. It is an "easy guitar" book so if you are looking for arrangements that sound like the records this is not the book. If you are looking for arrangements you can play for something you know to make practice and learning more interesting this is the perfect book for Beatles fans. All the songs are very playable by beginning guitarists once you learn the notes in first position. The songs are all in music notation (no tabs in this one) so if you don't read music look elsewhere. If you just want to be able to play Beatles songs that your friends will recognize and can sing along with, this is a great book.

A roommate of mine owned this book and I fell in love. Contains all of their really good hits almost. Has the full Revolver, Rubber Soul, Sgt. Peppers, Magical Mystery Tour, and even earlier pop

albums with *Hard Day's Night* and *Can't Buy Me Love*. It's honestly a MUST have for big Beatles fans, even if you only play piano, I recommend buying it and getting creative. I'd even recommend buying it for a friend who plays, more Beatles for you and your friends to play. Don't waste time with reading/printing free guitar music online, these are the correct notes and tabs

Great variety of songs
