I have Rudolph the Red-Nosed Reindeer on DVD and it's so cool to have a Pop up book as well. I don't have a family yet and when I do (that's my hope) I can share this with my kids and my Wife

and I can read our kids the story as well and our kids can pass it along with my grandkids (when that happens.) It doesn't matter how old you are because the book is Awesome along with the movie!!!:) 50 years is a longtime!!!:)

The book is beautiful but, unfortunately, the last page would not open properly and I returned it. I didn't reorder the book because I thought the pop-up on the last page might be a problem.

Big fan of show (can it really be 50 years old?) - this pop-up book is faithful to it and very well done. Plan to buy copies for other family members.

This is a book version of the movie which is a classic. While it's large and colorful, the pop-up sections are on thinner paper. That could be a problem and prone to bending or tearing by little hands. Had those sections been thicker, it would have received a 5 star rating instead. My granddaughters, though, really enjoyed the book.

great pop up book but some of the pop ups don't pop up its a beautiful book though and I am not going to return it but I also find that the quality of the paper for the pages not that great

I bought several pop-up books for my grandson at Christmas. This book is beautifully done. The cardboard is sturdy and will hold up and the colors are bright. We love this version of the story and it will be around forever.

My absolute favorite Christmas book. I love to read it to the children when I make my Santa visits each year. The kids love it the detailed pop ups!

I am a huge fan of Rudolph and a collector as well. This is a great book. However the one I received was tore up already.
