# The Japanese House: Architecture And Interiors

## Synopsis

The simple beauty of Japanese architecture and design has inspired many of the world's top architects and designers, such as Bruno Taut, Frank Lloyd Wright, and Terence Conran, to name just a few. The grace and elegance of the Japanese sensibility is reflected in both modern and traditional Japanese homes, from their fluid floor plans to their use of natural materials. In *The Japanese House*, renowned Japanese photographer Noboru Murata has captured this Eastern spirit with hundreds of vivid color photographs of 15 Japanese homes. As we step behind the lens with Murata, we're witness to the unique Japanese aesthetic, to the simple proportions modeled after the square of the tatami mat; to refined, rustic decor; to earthy materials like wood, paper, straw, ceramics, and textiles. This is a glorious house-tour readers can return to again and again, for ideas, inspiration, or simply admiration.

Excellent reading. Beautiful photos. Enjoyed it cover to cover...

This is a beautiful book, instructive in every way. People who watch HGTV should turn these pages to learn what high design really looks like, then give up on TV.

Great feeling for the subject!

I'll keep this simple, this book and the photographs contained within is an absolute time sink. I love this book, it's probably my favorite coffee table book of all time.

Great resource

Beautiful-got as a gift and didn't want to let it go. Read it cover to cover before I finally wrapped it

The pictures are outstanding. they make you want to frame every single picture. a beautiful book, although not much as reading material.

As there are no house plans , it is not possible to understand where are rooms shown in the pictures
