George Garber bicycles several thousand miles a year on the backroads of the Bluegrass region. He lives in Lexington, Kentucky.

This book offers 25 rides on lightly traveled roads that are scenic and safe. The maps are good and they all have accurate que sheets. Overall, this book provide what it claims- well planned cycling rides of various lengths in the Bluegrass region.

As an intermediate cyclist who was new to Kentucky, I've gotten a lot of use and value out of this book. It's got a wide variety of rides that have taken me to lots of places around the Bluegrass that I never would have found otherwise. Because rides vary from 4 to 100 miles, and from Easy to Moderate to Strenuous, it's also been good to grow with. I've done about half of these rides, and have only found a couple mistakes, which were easy to spot if you looked at a map beforehand.
