Customer Reviews

For almost 80 years, Kaplan Test Prep (www.kaptest.com) has been helping students grow their

knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey — incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan’s private tutors and admissions consultants supplement those offerings with one-on-one support.

My son is using this to prep for SAT Physics. He is really into it, This book is perfect stimulus to keep him focused and on task. He is actually enjoying the experience and says he is really learning.

This book was actually really helpful for me to learn the physics topics that I hadn’t learned in class. However, I didn’t score as well as I wanted to because I assumed that I was okay with all the other information that I already learned, but the subject test goes more in depth into the topics that I had thought. I ran out of time to take the practice tests, so try to make time for it! Definitely take advantage of the practice tests, so you can practice the timing and see what kind of questions will be on the test!
