Customer Reviews

The book is great but we've only read it twice and some of the pages are falling out. I guess the glue on the spine just isn't any good. I just punched holes and put those brass pins in to hold it together. We also have one of the Nemo books we got a while back that did the same thing, although it lasted 15+ readings before it fell apart.

Well made book with a great little story for any beginner reader. Wall-E is one of my sons favorite characters so he absolutely loves this book and I like that I can be sure its not going to fall apart just from being read 10 times a day.

Perfect for beginning readers

Cute little book, good for a quick bed time read. It is also quite good if your kids want you to read them a story as well....

Having fun with Smash Trash. Good item for grandson's learning in his reading.

I don't consider this a step-one book for trying to teach toddlers to read. Even I lose interest in reading Smash Trash a million times and with too many big words, it isn't a a book to teach from.

Our grandson is just learning to read. He loves most books, but finding Step-Into-Reading books featuring his favorite characters has really thrilled him. The words used are mostly simple ones. Those he does not know or cannot think out, we're encouraging him to sound out. His confidence grows with each book!
