El Salvador (Footprint Focus)

Synopsis

El Salvador's roads are less travelled compared to other Central American countries, making for a country which retains that elusive quality travellers often look for: adventure. From dramatic volcanic landscapes to blue-green lagoons, from the bustle of San Salvador to the quiet wilderness of El Imposible National Park, this guidebook will help you make the most of your visit to this spectacular country.

- Essentials section with indispensable information on getting there and around.
- Highlights maps of the region so you know what not to miss.
- Comprehensive, up-to-date listings of where to eat, drink and sleep.
- Detailed street maps for San Salvador and other key towns.
- Slim enough to fit in your pocket.

Loaded with advice and information on how to get around, this concise Footprintfocus guide will help you get the most out of El Salvador without weighing you down. The content of Footprintfocus El Salvador guide has been extracted from Footprint's Central America & Mexico Handbook.

Customer Reviews

Richard Arghiris first visited Latin America in 2003, when he travelled between the capitals of Mexico and Panamá. Richard has since become a regular visitor to the Americas, writing and researching content for guidebooks, magazines, newspapers and websites. Aside from Latin America, he has travelled widely in Europe and the United States, and is currently based in London where he works as an author and freelance journalist and is on the road whenever it calls.

Sooooooooo, If I had been trying to legitimately backpack through El Salvador this book would definitely not have been sufficient. I bought it because its the newest edition of all the travel books on El Salvador, which can be very important when traveling in a country with limited transportation options, and is not so tourism savy. In my case it didnt matter because I traveled with family who live there. So they drove us around, and knew where all the fun spots were at. Anyway, this is basically 95 page book with brief descriptions of both tiny and large towns of El Salvador, listings for places to sleep, eat, play, shop etc. Which makes sense.... its 95 pages long. If I were to do it again, but on my own, I would bring this book in addition to one of the older, more thorough travel books available.

I was excited to see something new put out for El Salvador, a country I know (fairly) well and LOVE. Sadly, I didn't feel that this book was very helpful and lacked details. Maybe that is what it is meant for, and if you are traveling quickly through the country this book is for you. However, for someone who has lived in El Salvador and traveled in it as well, it wasn't very exciting or provided any new information. I would rather recommend the Lonely Planet El Salvador/Nicaragua book. At this point it may be a bit out dated with prices or bus routes, but very well written and informative.

A dangerous place. You should read all about it before you decide whether or not to go. This book is safe and cheap compared with a plane ticket and a body guard.
