In The Shadows (Lark #2)

Synopsis

Mia Carrington is struggling to come to terms with the fact that she killed a man, while trying to find a balance between her role as the Princess of the Light Elves and attempting to lead the life of a normal human teenager. Too bad her dual life doesn't come with an instruction manual. Just when she thinks that fate can't throw anything else at her, the Duchess Isobel is found on the brink of death and Mia's boyfriend Jacoby is the only suspect. Despite the suspicion surrounding him, Mia is sure of the innocence of the boy she loves and she is determined to prove it no matter the risk. The problem is, the one thing that can save Isobel and clear Jacoby can only be found in the shadows of the Underworld. Oh boy

This is a classic fantasy tale where Mia gets just enough information to mess everything up with her good intentions. All the characters are faithful to how they were presented in the first book. The author gives us enough clues to know that Mia is really messing up. I just wish Mia would actually be more stubborn about what she wants to be happy, and not only stubborn in order to further the plot

by ignoring common sense. I think I was let down most by her relationship with Jacoby, or what seems like a pretty forced love triangle. I think I'll try the "sample" of book three when it comes out.

I could not wait for this book to come out! When I read Lark (the 1st book, incase you didn't know) I was hooked. It was such an amazing book. The main character Mia is so lovable and I couldn't wait to read more about the journeys that may lie ahead for her and her friends. I've just finished reading "In The Shadows" and I have to say I am even more anxious to read the next book. I loved this book! It was just as wonderful as the first! Thank you Mrs. Cope for writing such a great series! I read a lot of books and only certain ones make it to my favorites shelves. This series is definitely one of my favorites!

I purchased book one from a small bookshop selling local authors. I fell in love with it and as soon as I finished it I went searching for more. To my pleasure i found book 2 and 3 and immediately ordered them. Erica Cope writes with such a tone that you can't help but want more. The love story and the new found family are just the beginning of a wonderful tale. I will be reading more of her books!

In the Shadows continues where Lark left off as Mia struggles to find balance in her new life as the Light Elf Princess. The drama picks up as the people close to her in the human world begin to question her sudden change in behavior and relationships with her friends and family begin to deteriorate. When humans begin to disappear in a not-so-random fashion and Isobel ends up poisoned with Jacoby being the only suspect, Mia has no choice but to venture into the Underworld to find some answers and the journey ends up being way more than she bargained for. In this installment, we see her relationship with both Grey and Jacoby change and grow. For those who are Team Jacoby (like me!), you will be very happy to see that he is just as mischievous and flirty as ever and the steaminess definitely heats up between the two of them. However, do not despair Grey fans, Mia continues to struggle with her feelings toward him and their relationship strengthens and progresses as well. One of my favorite things about this book is that we get to see more of the Underworld during Mia's expedition. Erica's detailed descriptions of the eerie landscape and the disturbing creatures she stumbles upon paint a very creepy picture and I loved every minute of it! Overall, this sequel really does have it all--drama, romance, action--and it definitely leaves you wanting more. It's going to be very hard to wait for book 3!!

Things are getting complicated. Mia makes a huge mistake and has to choose between a rock and a hard place, to put things back the way they should be. Lots of action, angst, and anticipation to finish the trilogy. So on to the next.

This was a good continuation from the first book. Characters, for the good and for the bad, stayed exactly the same. Good that they kept up with their personalities, but bad because none of them seem to have learned any lessons... they're still making the same mistakes, fighting the same feelings. You would think that, after admitting she knows very little about the elven world, Mia would learn to confide in SOMEONE. Grey, Jacoby, her dad... but no, she allows the person, who's shown nothing but distaste for her, to "trick" her into doing a big no no. It's a common YA book mistake. Never learning from mistakes unless they make them over and over and over again. But I did enjoy this book and I'll read the next when it comes out... but if it goes beyond 3 books...? I think everything that needs wrapped up can be (and should be) taken care of in one final book.

In the shadows doesn't disappoint. If you enjoyed Lark then you will definitely enjoy the second installment. I love that these books are PG rated on the love scenes so I can recommend them to my daughter. I did have a problem with some of the crazy decisions Mia made like going off on her own, but I guess she is a teenager and teenagers do silly things!!!! I switched more and more to a Jacoby fan as this book went along and can't wait to read the next book and see where the story develops. Beware - there is more of a cliff hanger at the end of this book than there was in the first book, but I guess that just makes the anticipation for the next book more! I would highly recommend this series to anyone who enjoys fantasy or romance books. Great job Erica!

I love love love this book but the ending kinda irritates me.... if ? is seriously dumps Jacoby I'm going to be ticked because that's Crap and he's one of the most awesome characters. If she really chooses someone else over him she should get her head chopped off
