Terrific, helpful cards. Easy reference. The Dr. Lad's Marma Points of Ayurveda book is far more detailed, but it's not as handy. The cards are heavy-duty and are either plastic or plastic coated. Whatever they are, they are sturdy and resist stains/smudges/oils. I use these points for myself. Am currently dealing with a torn rotator cuff. The points really help get rid of the pain within minutes. While my range of motion isn't better yet, the pain is much better thanks to the points around the shoulder. I can actually sleep at night and work on the computer again, which is amazing. And, if the shoulder is sore at night before I go to bed, I work the points and the pain is completely gone by the time I'm done with the points. Pretty miraculous. I've also used the marma points to help with mood, energy, mental clarity, calming the mind and digestion and they all work great. The ancient Rishis were obviously very gracious in bringing this knowledge to the world. My thanks to them and to those who continue sharing this tradition of healing, wellness and spirituality.

Presents a nice alternative options when looking up particular issues however some of the cards are in another language which can be a turn off.

Such a handy, useful resource! A fuller text is useful for more complete information, but these are a great abbreviation and reminder.

Great study cards. One side with Marma points and the other side blank.

Marma book satisfied my expectations
