Customer Reviews

I bought the Lonely Planet book after I fell for a different guide to Corsica that had pretty maps and colorful pictures but was disappointing. This other guide really wasn't giving me the kind of information I wanted. I read the whole thing and was still unclear about which towns in Corsica I wanted to visit. The Lonely Planet guide gave better details and after reading it, I knew clearly where to go. So, fall for the books with color pictures! The Lonely Planet book has great suggestions for restaurants, hotels, and easy hikes. I could only find information on the GR20 in the other book, but the Lonely Planet guide had suggestions for less hard core hikers.

Compared to other lonely planet guides, this one is somewhat lacking in information. There are almost no pictures, and very little about what's interesting to see in the various locations. It gives pretty good information about hotels, but not about what is interesting to see there. For Corsica, the rough guide is better.
