Customer Reviews

Good selection of topics- history,geography,culture,etc.

Best book for tour guides to use as a training manual. IT describes Jamaica by route and also by key subjects and is an easy read. Very informative, even if latest version is outdated.

This book is so cool. I had the previous edition and gave it to a friend and ordered the new one for me. Great reference book for a first time visitor or a seasoned jamaicaholic.

Very helpful resource. Much cheaper via than most other similar books. It is top quality. And I have been buying travel books for years! I probably have close to 20 over the last 20 years from all over Italy, Mexico and Ireland. This guide is every bit as good as my favorite guide books (DK Eyewitness) and the price was far less.

I needed a tat more practical info. Good

This book arrived in a timely fashion, in good condition, as described! :) I am hoping it will prove useful before my trip!

Fast and great

First of all,I think travel books should be something that you take with you while you travel. This book on Jamaica has great color pictures and it's printed on great paper, but that makes it heavy and not the best to travel with. I find the section on history, culture helpful, but the advice on traveling isn't the best. I read both books and found the Moon guide to be a better fit, at least for budget traveler like me who likes to travel light. I would use this book as a resource for planning the trip, but won't take it with me on the trip.
