The Law Of Class Actions And Other Aggregate Litigation (University Casebook Series)

Synopsis

The second edition of this casebook treats the subject of aggregate litigation as a coherent whole. The new authors have preserved the original focus while updating, revising, and enriching the discussions of particular topics. The materials on class actions have been tightened and reorganized, reflecting recent judicial decisions that have made class actions harder to certify; and the materials on other procedural devices, including consolidations and arbitration, have been strengthened. The discussions contain more information about litigation strategies, judicial practices, financial considerations, and empirical findings.

Book Information

Series: University Casebook Series

Hardcover: 732 pages

Publisher: Foundation Press; 2 edition (May 20, 2013)

Language: English
