The Mathematics Calendar 2018

Synopsis

ORIGINAL. AUTHENTIC. The one and only The Mathematics Calendar continually reminds us how mathematics describes nature, impacts the sciences, influences the arts, is inseparable from music, stimulates and creates new technologies, and reveals the dimensions of our universe through its ever-evolving ideas and insights. Thirty-seven years after its inception, The Mathematics Calendar continues to awe its audience with its cutting edge math topics, its all new exciting graphics, and its mind-boggling problems. The 2018 edition includes 12 new fascinating math topics illustrating the incredible influence of mathematics on our lives. Each day of every month has a problem, whose solution is the date. The challenge lies in figuring how to arrive at the answer, and possibly discovering more than one method of solving the date's problem. Each month's text, photos, and graphics have a wealth of information and are even sprinkled with a bit of humor. The 12 topics feature exciting, historic, and current math ideas and topics. Wherever it is seen, it's a conversation item because it is more than a calendar; it has tantalizing problems on each day and a treasure trove of information, games, puzzles, and stories. The Mathematics Calendar has given hundreds of thousands of people a new perspective about math. (Theoni Pappas)

Book Information

Calendar: 32 pages

Publisher: Wide World Publishing; Wal edition (August 1, 2017)

Language: English

ISBN-10: 1884550789

ISBN-13: 978-1884550782

Product Dimensions: 11 x 11 x 17 inches

Shipping Weight: 3.2 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Customer Reviews

"...continues to astonish...among the best calendars I've seen...a positive brain-wrecker." ...; San Francisco Chronicle "A wall calendar that should be off the wall...it's like having a math magazine with twelve solidly researched articles. You and your students will really have to take some time to get everything out of this publication. If you hang this

up, expect students to be standing in front of it for a long time." #151; Mathematics Teacher"Very functional,#133;hone up your skills day by day#133; No rest for the weary with this calendar that will most definitely wake you up." #151; The Book Reader "#133;very clever#133;profound quotations #133;interesting mathematical information." #151; San Jose Mercury"#133;a winner in The Exploratorium Store#133;unique#133; thoughtprovoking#133; entertaining." #151; The Exploratorium Store"Each day brings a different math problem whose solution is that date. The page opposite is equally interesting, festooned with puzzles, oddities and arcana. Wonderful! Start your day with a thoroughly bent mind, and perhaps learn a bit of math too. It's become a museum store classic." #151; Whole Earth Review"It's a unique calendar. It sells well and is something that has never been done." #151; Stanford University Bookstore"#133;makes math fun as well as educational." #151; The Bookwatch"Some of the most unusual items to cross our desk are The Children's Mathematics Calendar and The Mathematics Calendar. Each includes a different problem for each day of the year, along with valuable mathematical information." #151; The Catholic Teacher"#133;designed to increase understanding and appreciation of math concepts." #151; The Cincinnati Post"Pappas has a light handed and clever approach to this most complex of subjects#133;The Mathematics Calendar unfailingly delivers a wealth of challenging puzzles interspersed with clearly illustrated and enlightening essays on mathematical concepts. It's always a bestseller in our shop, and long time aficionados literally bound in the door when the new calendar appears! A delightful and vastly informative start to your day#133; don't miss it." #151; Bell's Books, Faith Bell, owner (Theoni Pappas)

Theoni Pappas is passionate about mathematics. A native Californian, Pappas received her B.A. from the University of California, Berkeley, in 1966 and her M.A. from Stanford University in 1967. She taught high school and college mathematics for nearly two decades, then turned to writing a remarkable series of innovative books which reflect her commitment to demystifying mathematics and making the subject more approachable. Through her pithy, nonthreatening and easily comprehensible style, she breaks down mathematical prejudices and barriers to help one realize that mathematics is a dynamic world of fascinating ideas that can be easily accessible to the layperson. Her math calendars and over 18 math books appeal to both young and adult audiences alike. Three of her books have been Book-of-the Month Club selections, and her Joy of Mathematics was selected as a Pick of the Paperbacks. Her books have been translated into Japanese, Finnish, French, Slovakian, Czech, Korean, Turkish, Russian, Thai, simplified and traditional Chinese, Portuguese, Italian, Vietnamese, and Spanish. In 2000 Pappas received the

Excellence in Achievement Award from the University of California Alumni Association for her work on books and other innovative products that deal with mathematics. She lives in Palo Alto, CA.

(Theoni Pappas)

Favorite calendar: welcome back! The Mathematics Calendar draws people to my office every day to solve the daily problem, talk math and learn together. This is my favorite gift for my teacher friends and lab techs...i've had one every year available and often go back to the monthly features since Theoni Pappas has always been way ahead on breaking math news, connections of math to nature and art...look for her books, too!
