## Synopsis

The storm swept through and wrecked Second Chance Farm and with it Emily's heart. Jordan's horse Wizard is missing and no one knows where he is. They've searched high and low and they can't find him anywhere. Emily suspects he's been stolen. Jordan thinks that the horse might be trying to make his way back home and Taylor thinks she might just sue Emily and her father. On top of that the next team show in the Junior Olympic series is fast approaching and with it Valentine's Day. Emily had thought that maybe Jordan would ask her out. Now she thinks that he just hates her because she lost his horse. And even though Bluebird is in top form, Emily isn't feeling her best. She can't shake the cold she caught in the storm and she's worried that if she doesn't get better, she might have to miss the show altogether and forfeit her place on the team. And it's not just Wizard that Emily is trying to find. There is another horse. One she used to ride and now can't get out of her mind. The first horse she fell in love with. But can it really be possible that Harlow is out there competing again after Esther retired him? And if he is, why is it that he is sound and winning when his vets had resigned him to a life of lameness as a pasture pet?

## Customer Reviews

I seem to get stuck reading this "Show Jumping Dreams" series by Claire Svendsen . Stuck in the sense that they are like candy and they leave a taste for more or mostly, for what happens next. They are really geared for a younger audience than myself and I often feel like I want to pop the characters upside the head occasionally , or make that, most of the time but then most of them are fairly young, under 18. The author has a tendency to repeat the obvious more than I like but again, age related I figure. She does, however, get the horse accouterments correctly. All the right verbiage of horses and show language which I do appreciate. What I am not crazy about is the fact that these are like tiny installments. I mean \$3.00 ( rounded out) for 135 pages? Really? Would rather spend a bit more for a normal size book. "Bittersweet Farm" for instance is usually over 235 pages and only a buck more but made for a slightly older reader and more character development. Obviously what our author does, works as here I am talking about it and still wanting to see what happens next in the life of Emily Dickenson and all her horses and friends. To see why someone has stolen (maybe) Wizard. Just wish they were a bit longer.

I liked it ok, but I am one who does NOT like a no ending book. I prefer a ending. Leaving us hanging with out any resolution I guess is what this series does. It is the first time I have read any of her books an I am sure there is a method as they say to her madness., as now I will have to be on the look out for what happened to Wizard!

Great they all are. Love this author. Great story can't wait till the next one! When is the next book

I loved this book couldn't put it down. Even some mystery in this one!

I am enjoying the changing relationship between Emily's father, Cat and her horses. Highly recommended to all age groups. Can't wait for the next book.

Spoiler alert: I quote lines from the book in my review, one from the "book blurb" and another near the end of the review...In Barn Sour (Book 26), "a storm blew through and wrecked Second Chance Farm." Wizard is still missing and though they have searched everywhere, they cannot find him. Was he stolen? Was he trying to get back home? Will Emily and her father be sued by Taylor? Will Jordan hate Emily? ...Emily is sick and cannot get rid of the cold she caught during the storm when

she went out looking for the horses and ponies that got loose. Bluebird is in top form and the second Junior Olympics team show is coming up. If she cannot get better and show, Emily will have to forfeit her place on the team. Cat is becoming a real sister to Emily and helps a lot while Emily is not well... Jess has another horse to show, one from the past... She is riding him and will compete against Emily and Arion... Jess will still ride Blue Morning Mist in the Junior Olympic team competition (she had already switched horses from Valor to Blue and she was not allowed to switch again)... Emily's father brings Socks and Canterbury to the show and they will compete against each other in the mini Grand Prix "A" plus, Emily will be "catch riding" Valentine "A" another horse in that class (the owner is a girl who has broken her arm and cannot ride). She will be riding in front of the girl's famous trainer, Walter Grey. Her father tells Emily she must ride each horse to the best of her ability. How will the Junior Olympics team do at the show? Who will win the mini Grand Prix? At the show, Emily realises something very important about herself "A" she "was afraid of losing everything" because she had "already lost so many things." ... Will this revelation help make her a better person? What did Emily find at the end of the book? Read Heart Horse and find out! Kindle Unlimited Member

What a tease! Just getting I to the book, the horse show, and then the clunker, at the end! Kind of makes me mad, that in order to find out what happens, I need to buy the next book, in the series! Oh, well! I could be spending my money on crack cocaine, which is similar to being a horse addict!

Again I can't wait for the next book I LOVE this series and I'm always impatiently waiting for the next one to come
