Customer Reviews

Another totally awesome Insane Mandala book by Marti Jo!! I'm a HUGE fan of her books and this one doesn't disappoint! So glad she made another Insane Mandala book, I hope she keeps making them! I highly recommend any of her books as well as her midnight edition books! The paper isn't bad though alcohol markers will bleed. But I take the pages out of the books to color using an exacto knife.

I was disappointed in this book because I thought the mandalas would be more detailed or harder. Mostly I rate the difficulty but how long it takes to do a page. This book runs around two hours per page. For me a difficult page is four hours or longer.

This is the most intense Mandala book I have seen. This is the second in her series. Volume 1 is

what hooked me and she did not disappoint with Vol. 2. This is done on med weight paper, the book is single sided. You will need a piece of cardstock between pages if you use markers . I highly recommended this book to anyone .

I love coloring Mandalas so this book is right up my alley. The drawing are easy to color. Anyone who likes coloring Mandalas should like this book!

Great challenge with each page. Nice change..

I am happy to be the first to review this book for you because it is now my favorite in my huge collection of adult coloring books. I had not heard of Marti Jo's Coloring before, and usually don't purchase items that haven't been around long enough to get a review, but when I happened across a post about this book, I had to try it out. The book itself is very well-made. The paper is of excellent stock, each of the 50 amazing images are on one side only. If you like detail and mandalas of a different kind, you will love this book as much as I do. I included a few of the images to give you an idea of what's inside. My camera made some of them look off-white or a little blurry in spots, but rest assured the paper is pure white and the images are crisp and clear. I just got this yesterday so have only finished one so far but I'm getting ready to start another one. Highly recommended to anyone who loves insane mandalas like these.

AOK.
