Cupboard Boy: A Shockingly True Story Of Child Abuse, Cruelty, Brutal Beatings, Starvation, Racism And Poverty.

Synopsis

Paul's father selfishly deserted him and his mother for another woman when Paul was just coming up to two years of age. Paul's mother quickly entered into a new mixed race relationship, which in 1960's Britain was very much frowned upon. Consequently Paul and his mother were instantly ostracised by their family and friends and they were left to suffer/witness dreadful physical abuse and neglect at the hands of Roy an evil and very sick man. The following, is a harrowing story and may - no should be as distressing to read, as it is for me to write. However, the events that took place during the years 1963 to 1980 need to be recorded, for the sake of future generations of children to come, and out of respect to all the children who have already suffered at the hands of demonic parents. I especially dedicate this book to one hell of a brave boy, my step brother Little Paul, who sadly died with a great deal of dignity at the young age of 19 from cancer after years of horrific abuse. While reading the accounts of this story, I felt truly saddened... But at the same time, felt relieved that it's out there for all to see.. I say thank you to the author, for being so courageous and freed to get the word out
