Crystal Wisdom Healing Oracle: 50 Oracle Cards For Healing, Self Understanding And Divination

Synopsis

Crystals have been used for divination since ancient times. Their powerful intrinsic energies can serve as mirrors to reveal your true path and link you to that part of yourself that is all-seeing and all-knowing. Created by bestselling crystals expert Judy Hall, *The Crystal Wisdom Healing Oracle* will connect you to your higher, intuitive self, and, in the process, give you amazing insights into your past, present and future. The kit consists of a fully illustrated book containing 50 crystal profiles and advice on using the Oracle, and a deck of 50 crystal divination cards. Shuffle the pack and draw a card for an immediate insight. Or, for more in-depth readings, spread the shuffled cards according to one of the four crystal lattice designs the author describes, each one suitable for a different type of enquiry: Square (answering what if? questions); Hexagonal (how to move forward); Orthorhombic (hidden obstacles and skills); Triclinic (making decisions). Five card suits reflect the vibrational frequencies of the crystals within them (Earthy, Healing, Cosmic, Integration and Interactive) and allow you to conduct divinations at various levels, from the material to the spiritual. Superb, specially commissioned photography captures the essence of each of the 50 crystals shown on the cards. Perfect for anyone drawn to the beauty and healing energy of crystals, this Oracle shows you how to call upon them, even in card form, for life guidance and self-knowledge.

Judy Hall is known around the world for her crystal work and a wide range of bestselling books, including *The Crystal Bible* and *Earth Blessings*. Working as a psychic, healer, broadcaster and

I just received my preorder of The Chrystal Wisdom Healing Oracle. I am unfamiliar with the author's work. Through surfing the internet I happened upon Judy Hall's site recently and decided to give her new deck a chance, since it felt like a strong synchronicity that I discovered Hall and her work just as her new deck was being published. The presentation upon opening the box is very nice. It feels and looks very sophisticated and it resonates with the crystals beautifully with the silver accents. I liked that the box opens like a drawer. Very clean. As is my custom with a new deck, I pulled a first card with the dual intention of introducing the deck's energy and insight into my current goals. I pulled Garnet, and the image immediately spoke to me. The information about the card fit my situation very well, and is truly helpful. I love how the images are done. There was great care taken to photograph the crystals. They are on a black background with the lovely effect of a reflection of the crystal. The name of the crystal and card number to go with the book are done in such a way as to not distract from the crystal image. The cards are a nice size with beautiful silver gilt edge and a subtle silver/gray gradation image for the back of the card. There is also a color border which is part of the information for each card. The book has a lot of information for such a small volume. This is a very good resource and tool. It would be good for a beginner or anyone no matter their level of expertise because the cards are so full of the energy of the crystal they represent. I have another "crystal" deck, and the images do not carry the actual crystal energy as this deck does. My only complaint is the tiny print is very difficult to read. The convenient size and thoughtful design of the box and book makes up for this. A lot of value is packed into this deck and book. I am happy I made the impulse decision to purchase.

I've owned over 30 oracle decks and this is my first crystal oracle deck and now one of my favorites! The box the cards come in is a very sturdy, hard box that slides out on the side, and I love that! It's unique to most oracle card boxes and easy to take the cards and book out. The cards are stored in a cutout in the middle of the box, it's nice but the first few or so cards tend to slide around. Both the book and box are bigger than the cards, these cards are actually smaller than your average house cards, and if comparing the size perfectly to any other deck it would be by the chakra wisdom cards by Toni Hartman, also by the same publisher Watkins publishing. Anyway, the cards are silver gilded, but aren't the best card stock and shuffle really easily due to the smooth finish of the cards, which aren't matte, but not super glossy either. The backs are a plain gray and white gradient effect,

which I really don't like, that is why these cards get a 4 stars because to me, it looks like they got lazy and couldn't come up with anything else to use on the back (I could come up with plenty better than the uglyish plain gradient gray color), but really the backings don't even matter it's what's on the cards themselves that do. Okay the cards themselves, there are 50 cards, that are color coded in 5 sections, 10 cards in each colored section as follows: Purple- Earthy vibration cards (earth and the physical) Aqua- Healing vibration cards (mind body and spirit) Pink- Cosmic vibration cards (soul and spirit) Blue- Integration vibration cards (earth and heaven) Green- Interactive vibration cards (transformation and well being) I think the colors could have been chosen better because some of the colors are too similar, or in the same color group such as aqua and blue, pink-purple and purple. The cards have a simple but beautiful high quality photograph of the crystal, that has a reflection on the bottom of the crystal, and a simple number of the card all the way on the bottom, and next to it is the name of the crystal. The colors of the crystals are rich, radiant and colorful and I think were done wonderfully and really embody the energy of the crystal itself. There is a good range of different kind of crystals in this deck, from well known popular ones like tigers eye and amethyst, to rare ones that I've never even heard of like golden healer and ajoite, to something I didn't even think even belonged in the crystal category such as pink granite. The guidebook this deck comes with the the real treasure though, it's thick and filled with so much useful, interesting, helpful information, it's 119 pages long, and Judy hall opens the book up with a chapter on crystal vibrations followed by the therapeutic uses of crystals and how you can use them to heal yourself (wether you have the actual crystal or not) and even addresses things like chakra imbalances. I really love the chapter on working with the cards because she has added multiple different questions you can ask the oracle if you can't come up with any on your own, and has some really amazing and unique card spreads! There is one full page dedicated to each card with a ton of great information such as a little about the stone and what it does, self understanding, the divination meaning of the card, healing insight you may follow, and also include things like the frequency of the stone, the timing, the zodiac associated with the stone, the chakras and the soul path of the card. Overall iam pretty impressed with this deck, and I have loved working with it so far, and have gotten really accurate readings with them, and the energy this deck embodies is very powerful, yet calming. If you are into crystals and oracle cards this deck is for you, and it's one of my go to decks now.
