Customer Reviews

Learn How to Break Apart and Quickly Solve Difficult CPCE Questions Here's a little "secret" about the CPCE: the CPCE is what we in the test preparation field call a "content driven" test. While some tests are looking to see what you are ABLE to learn, the purpose of the Counselor Preparation Comprehensive Examination (CPCE), offered by the National Board for Certified Counselors (NBCC), is to test your understanding of what you have already learned. The goal of the CPCE is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about what you know than your ability to solve clever puzzles. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the CPCE by learning critical concepts on the test so that you are prepared for as many questions as possible. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the CPCE is within the reach of virtually anyone interested in learning the material. This is great news! It means that if you've been worried about your upcoming CPCE, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the CPCE, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the CPCE Flashcard Study System:

we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee success on the CPCE. We wanted this system to be simple, effective, and fast so that you can succeed on your CPCE with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our CPCE Flashcard Study System

Study after study has shown that repetition is the most effective form of learning- and nothing beats flashcards when it comes to making repetitive learning fun and fast. Flashcards engage more of your senses in the learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our CPCE cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the CPCE- if they can read, then they can quiz you with our flashcards!

Now, let us explain what the the CPCE Flashcard Study System is not. It is not a comprehensive review of your education, as there's no way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that memorization alone will automatically result in a passing CPCE score- you have to have the ability to apply it as well. However, without the foundation of the core concepts, you cannot possibly hope to apply the information. After all, you can't apply what you don't know. The CPCE Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the

CPCE. Nothing more, nothing less. --If you think there's even the smallest chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

The image appears as though this is a small case holding note card sized flashcards. It is not. The flashcards are printed on loose leaf paper and need to be cut out with scissors. There are many pages and just turning the pages into flashcards took many hours. Questions were too long and made it difficult to study key concepts. Purchase the Encyclopedia of Counseling: Master Review and Tutorial for the National Counselor Examination, State Counseling Exams, and the Counselor Preparation Comprehensive Examination instead. The author does a great job of explaining why the answers are correct and incorrect. Also provides useful memory devices. Some questions on CPCE/NCE come directly from this study tool.

I like that the flash cards are categorized with a subject heading (this is great), they are printed on good quality paper, and I like that they are perforated. I am really rough on material so I opted to laminate mine so they will last longer. Many of the flash cards ask more than one question so the explanation on the back can be intimidating.

I haven't used these very much because there are many of them, and there is more than one word on most of the cards. There are paragraphs on most of the cards in small writing.

There was WAY too much information on each card, the cards came as sheets of paper to be separated instead of actual cards, they were not laminated, there was no box in order to help keep them organized and able to be transported safely, and there was a lot of misspellings. I ended up not being able to use them since there was too much information, I had to make my own cards.

I never paid so much money for something with so many typos. It was not proofread at all, and the cards were not evenly distributed at all. If each subject has 20 questions on the test, why do some sections have 15 cards and some have 115? Don't waste your money on these. Just buy a book.

The flashcards seem pretty good. I have just started using them. There does appear to be a lot of info on each card, but I am getting use to that. Overall, I think it was an excellent purchase. I am really happy I have them now as a study aid. There is so much to remember, or so much that was

forgotten. These are a big help.

The flashcards contain too much information per card. I am having to remake them all. I wish I had not separated them already, or I would return them.

The CPCE Flashcard system is well organized and extremely convenient. These flashcards allow me to successfully review material in all eight domains on the examination.
