## Customer Reviews

I ordered this book under the impression that it was like new. While the outside looks fine, the inside is full of writing so it makes it impossible to study from. I should have just bought it new. I guess you get what you pay for. This should have been listed as okay quality by the seller based on how about 80% of the book is written in. I am very sad but I can't do anything about it since I was in the hospital. Next time I order used, I am going to ask for pictures of the book both inside and out.

Daughter loved this book. She used it for her CNA course.

This is an excellent companion for the textbook, with questions that prepare the student for CNA certification. There are usually four to six pages of questions for each chapter in the text, thus pushing you to understand topics thoroughly.

Great. It is in amazing condition, looks new as hell.

Was in perfect condition, I'm satisfy. Thanks.

Thank you! And its in good condition!

Didn't pay hardly anything when I returned it.

Excellent condition thank you
