Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including the first commercially available travel map of South America.

This map was a joy to receive - I was unable to find such a good map when I was in Zimbabwe, and it has enough detail for me to locate friends' villages in some pretty remote areas. The unfortunate possibility is that the infrastructure in Zim has deteriorated so much that "primary roads" and other information (petrol, medical facilities, banks, etc.) is obsolete. Get the map if you plan to travel there, or simply want to learn more about this once-beautiful country. But also "know before you go" about the current situation.
