The Ski House Cookbook: Warm Winter Dishes For Cold Weather Fun

Synopsis

What could be better than standing on top of a mountain, snow sparkling, the slopes calling? Not much, except perhaps skiing down to a warm, home-cooked meal that comes together effortlessly. The Ski House Cookbook makes it all possible with 125 recipes that will keep you on the slopes or winding down with friends afterward, not stuck at the stove. Here are easy and delicious meals designed with minimum prep times for often limited home-away-from-home kitchens, from quick-cooking roasts, sautés, and other fast meals to slow-cooker dishes and recipes that can be made in advance and frozen. And, to get you in the right frame of mind, each recipe is coded with a difficulty rating that corresponds to the familiar green dots, blue squares, and black diamonds of the slopes. Start the day with *It Was the Night Before French Toast* (assembled in advance and baked in the morning) to keep you going until lunchtime, when a Colorado Cubano (made in a flash from readily available deli meats) will refuel you for the afternoon. An entire chapter of après-ski snacks, including Green Mountain Fondue and Spicy Roasted Chickpeas, helps tide you over until dinner, which includes tempting options such as Roasted Pork Loin with Cherry Balsamic Pan Sauce, Mogul Beef Chili, and Roasted Brussels Sprouts with Bacon. Hearty soups and pastas and indulgent desserts round out this collection of recipes that will warm you up from the inside out. In addition to the irresistible recipes, The Ski House Cookbook offers practical information on cooking at high altitudes, a section on getting the most out of your slow cooker, and 50 beautiful full-color photographs of the great dishes and snowy landscapes that skiers love. So whether you're hitting the slopes or just dreaming of days in the lodge, a double diamond pro or struggling down the bunny hill for the first time, here is your go-to guide to making easy, satisfying, and comforting winter meals.

My mom saw this is a cooking store and saw one recipe she liked and decided she had to have it. I bought it for her thinking that with the few recipes we liked surely there would be more. I should point out that we cook and generally don't follow recipes or modify them as we go to create something of our own. So I was disappointed in this book because it is mostly filled with basic recipes that I personally don't need to follow so I feel it was kind of a waste of money. If you are more of a beginner and like to have that step by step guide then I would absolutely recommend this cookbook. There are some recipes that are delicious and based on what I read should turn out pretty great.

Not only does this cookbook have yummy recipes for pre- and apres-ski, it is well-written and contains explanations of differences in cooking and baking at high altitude. I have made several of the recipes and all have been big hits. It's cute the way it's set up as well. Recipes are rated blue, green and black, like ski runs, for difficulty.

I adore this cookbook that is full of hearty, clever recipes I return to again and again. Every year when the weather turns chilly, I pull out this book and make many family favorites, particularly the overnight french toast which is FABULOUS and the beef stew which is the best stew recipes I have ever made. Sarah Pinneo and Tina Anderson have created a practical, delicious group of recipes that work all year-long and their ranking of the recipe's difficulty based on ski slopes is charming and accurate. I have given many copies of this book away to friends who have tasted recipes I have made from it and then want their own copies. This is a treasured part of my cookbook collection.

We used to spend quite a bit of time on the beaches as renters and I was always looking for simple,

tasty recipes to throw together and toss in a lunch pail or have ready to throw together for a quick evening meal. Now that we've transitioned to renting a ski house I was looking for something similar with heartier fare and this was exactly what I needed. Great tips on making ahead or what to pack for ski lodge lunches and an awesome what-to-have-in-the-pantry section. Each item can be adjusted to accommodate for a variety of supplies and tastes. A great jumping off point.

I originally purchased this cookbook last winter after learning of it from a friend. Having prepared several recipes (the brownie recipe is my stand-by) it quickly became my favorite. In August, our home burned to the ground as a result of a wildfire. This cookbook was the first one replaced. The process of starting over is challenging at best but having a familiar item and favorite recipes (the soups and brownies are the best) has helped establish a new normal.

I LOVE this cookbook! I have made many recipes from it and every one has been great. The Italian Vegetable Soup, steaks, and the chocolate chip brownie bars are all delicious. None of the recipes are overly involved and can be accomplished in under an hour including prep. I love to cook, especially using fresh herbs and garlic so this cookbook was perfect for me. The meals have a lot of flavor and have been well received by my children and husband. Do yourself a favor, buy it!

Have made several recipes. Great winter cookbook.

This is my go to book for cold, winter days. It has relatively quick and easy recipes for comfort food and slow cooker meals. I love this book!
