Customer Reviews

The pullout map, In english, was very helpful. Much better than Google maps since everything listed in Google maps in in Korean and not easily translated in the app.

very clear & concise guide to one of the biggest metropolitan areas in the world. Probably too concise: many points of interest merit further discussion. Lonely Planet has no competition in this market, which is why this is the best Seoul guidebook available.

This is the second book we got for our grand daughter which will be going to Korea to teach English this spring. She has found all of the books from that we have ordered to be very helpful.

Very helpful.

Too few useful and up to date information. No detailed maps and recommendations of places that are really worth seeing.

Outstanding as is the tradition with Lonely Planet books. Thank you.

PERFECT!!!

Great book. Lots of information with a nice map.
