Firmament: Gestern

Synopsis

You never escape your past Andi Lloyd is more comfortable than most with interstellar travel, but she's not prepared for the perils and peculiarities of a world she has all but forgotten—the planet Earth. As the Surveyor undergoes repairs, her brother August receives a message with news that will send both of them across the world to a place he never wanted to visit again. Neither of them are prepared to be thrust into a world of political intrigue amid the tangled forests and crumbling ruins of Austria. They aren't prepared to encounter wild animals and endure cross-country hikes. And they definitely aren't prepared to face it all alone. But despite the dangers they must press on into the unknown to find a way to save Andi's life, to decide the fate of Earth itself—and to rescue a lonely girl who just happens to be their little sister.

Customer Reviews

The end of reversal zone brought me eagerly waiting for the next book. Gestern did not disappoint! The plot had so many surprising twists and the characters were well developed. The only problem?

It left off with even more cliffhangers than the last one!

Title: Firmament: Gestern Written By: J. Grace Pennington Genre: Christian Science

Fiction Recommended Ages: 13 & up Introduction: I have read all of the books in the Firmament series and loved each one. In Radialloy, I fell in love with Andi. In In His Image, I fell in love with her unique spin on aliens in space. Then came Reversal Zone which, as the title suggests, reverses many things. I'm not sure exactly what I fell in love with in that book, but the uniqueness of the plot really drew me in. Next comes this book, Gestern. There are so many twists and turns, you could almost get whiplash. But it's a good kind of whiplash. The kind that leaves you begging the author to hurry up with the next book. Characters: 1/1 Grace has always done a great job developing her characters. This book is no different. Andi's struggles to forgive, August learning to be confident and push himself, Crash's desire to change. It all came through vividly to combine into an excellent story. Dialogue: 1/1 The wit, pain, struggle, and everything else made for some great dialogue. Plot/storyline: 1/1 As I mentioned early, the plot and storyline kept me on my toes the whole book through. I never knew quite where the story was going to head next. Overall writing quality: 1/1 Tres bon. Or should I try to find the German words for very good? Sehr gut. There were a few editing issues that I found, but since I had an Advanced Reader Copy, I'm going under the assumption that it still had one more edit to do before publication. Un-put-down-ability: 1/1 Let's just say I have enough experience with the Firmament series to know better than to start reading it before bed assuming I'll be able to stop and put it down sometime. So I started reading it one morning, had to put it down for a while (but didn't want to) and finished it later that day. Make sure you set aside enough time to start and finish the book. Conclusion: 5/5 Even if you don't particularly care for science fiction (like me), you might still enjoy this book. Especially since most of it didn't have much of a sci-fi feel. They were on a space ship for a little while at the beginning, but then most of the book was on Earth with more of an adventurous type of storyline. I highly recommend this book. It's clean, full of surprises, Christian, but not preachy, and very well written.
