Customer Reviews

Robb Tracy, CompTIA Linux+, LPIC-1, CompTIA Network+, CompTIA A+, CompTIA Security+, CNE, CNI, has designed and implemented technical training products and curricula for major hardware and software vendors, including Novell, Micron Technology, and Motorola. He has also served on industry-wide certification committees, and is a co-founder of Nebo Technical Institute, Inc., a leading provider of information technology training and consulting. Robb is the author of LPI Linux Essentials All-in-One Exam Guide and LPIC/CompTIA Linux+ All-in-One Exam Guide.

This is a very thorough beginning Linux text. I have adopted this new version, along with a computer architecture text (5th e), for my fall course in Computer Architecture and Design.This edition of the All in One can be used for certification prep on the newest exam. We just use it to study Linux, and to aid in using Linux on laptops with an Ubuntu CD, or by creating Ubuntu flash drives to boot students Windows laptops into Linux.I find the book to be surprisingly readable, given that it has an exam-prep aspect. Command line and GUI, primary emphasis on command line.

I needed a Linux study guide to support my personal move from Windows 8 to Linux and so far this book has been an excellent resource.

One of the biggest gift you can give to yourself to improve your professional IT skill, a book! This one in particular that comes with a CD full of information and practical exercises. Information seem pretty digestible as Linux world is really a big one, this book as i have been reading it, give in the easiest manner that i have ever seen.

Very informative and thorough.The author also covers a lot of topics from an opensuse perspective which is refreshing as most texts stick to Debian/Ubuntu/RHEL.

very informative!

This helped me pass the exam. Its a nice reference too.

Great book!!

Easy for starter to understand enough about Linux.
