Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

This is a great summer "homework" assignment for my tutee who is entering high school next year. He was in ESL classes where the teachers and the aides spoke Spanish. As a result, my tutee is not fluent in neither oral nor written English. To top those two characteristics, the tutee is a very introverted young man. His parents and I are working with him to initiate conversations with his school mates and to engage in real dialogues. He is gaining more confidence; however, I hope that this summer "homework" aids him in his English. The tutee is a great student in every subject except English. I am very hopeful that next year he will be a great student in every subject!

This is a difficult book for those who have not had a strong education or emphasis in grammar and language arts. I pulled my child out of school to homeschool and play "catch up." Though it was difficult at first, she has learned a great deal in the last 3-4 months and has significantly improved.

It helps a lot in studying

It is a good workbook, my son takes it to tutor to work together on his grammar, because at school they don't do grammar review like this, so it is in some way helpful.

There are no answers in the workbook. How are you supposed to know if your answers are correct? I've searched everywhere for a teacher edition or answer key. Can't find one.

Now there is ebook for this but if you are a book guy buy this

not being used without the teachers edition which has the answer key. teachers edition is only available at a 200.00 price. anything less they will deliberately send a different grade workbook, and have it appear as human error. total BS

The book looked like something I wanted to use with my daughter- straightforward, workbook style grammar book. Challenging, yet perfect for her needs. I finally settled down to start planning her work, and found that pages 45-90 were missing from the book that was described as "new". I received it last month, and am just getting around to using it, so the return policy has me paying shipping to send it back. I am really disappointed that something labeled as "new" had 45 pages missing ! Otherwise, it appeared in great shape, so I didn't notice sooner.
