The Descent (Devil's Advocates)

Synopsis

The story of an all-female caving expedition gone horribly wrong, *The Descent* (2005) is arguably the best of the mid-2000s horror entries to return verve and intensity to the genre. Unlike its peers (*Saw* [2004], *Hostel* [2011], etc.), *The Descent* was both commercially and critically popular, providing a genuine version of what other films could only produce as pastiche. For Mark Kermode, writing in the *Observer*, it was "one of the best British horror films of recent years," and Derek Elley in *Variety* described it as "an object lesson in making a tightly-budgeted, no-star horror pic." *Time Out's* critic praised "this fiercely entertaining British horror movie;" while *Rolling Stone's* Peter Travers warned prospective viewers to "prepare to be scared senseless." Emphasizing female characters and camaraderie, *The Descent* is an ideal springboard for discussing underexplored horror themes: the genre's engagement with the lure of the archaic; the idea of birth as the foundational human trauma and its implications for horror film criticism; and the use of provisional worldviews, or "rubber realities," in horror.
